

More than Money

Preparing Grade 3-4 Students for Their Financial Futures

The earlier students learn how to manage money, the greater their chances of lifelong financial success.

According to a study by the JumpStart Coalition for Financial Literacy, only 26% of 13-21-year-olds said their parents taught them how to manage money. This gap is not being addressed by schools, as many don't have the resources to offer classes in financial literacy.

JA has designed the *More than Money* program to address this challenge. With the assistance of volunteers from the local business community, the program teaches elementary students about earning, spending, sharing and saving money.

Key Outcomes

In this interactive classroom program, students use games and multimedia to:

- Identify the role of money in everyday life
- Practice making sound financial choices using cooperative decision-making skills
- Manage a personal bank account by making deposits and withdrawals
- Identify ways to earn income through jobs or a small business
- Learn how to make ethical personal and business money management choices
- Develop a basic business plan based on their job skills and interests
- Apply the problem-solving and money management skills needed to operate a small business

For details regarding program availability by grade level please contact your local JA Charter office.

Inspiring and Preparing Young People to Succeed In the Global Economy

JA Canada is the country's largest youth business education organization. Since 1955, we have inspired and educated more than four million students. Each year, more than 240,000 students across Canada participate in our financial literacy, work readiness and entrepreneurship programs. Through these programs, students gain the knowledge and confidence they need to succeed in school, business and life.

Dedicated volunteers deliver all JA programs. They bring their professional experiences into the classroom to help students connect program concepts with real-life situations. Volunteers use a mix of hands-on activities, discussions and digital learning to engage students and ensure they retain and apply what they learn.

Empower Students to Succeed

Become a JA Volunteer

Help Students In Your Community Achieve Their Potential

Dedicated volunteers are at the core of JA Canada's programs. Last year, more than 14,000 individuals volunteered with JA and helped transform the lives of Canadian youth.

As a JA volunteer, you'll deliver programs in a local classroom – giving students critical financial and business knowledge. JA provides you with program materials, in-depth training, and support to ensure that everyone has a fun and meaningful experience.

Bring JA to Your School

Prepare Your Students To Start a Business

More than Money, and all JA programs, are taught by volunteers from your local community. This gives your students a unique opportunity to learn from actual business leaders. These volunteers share their real-life stories and experiences, which makes the learning engaging and memorable. By imparting their knowledge, volunteers give students the confidence, skills and inspiration they need to launch a successful business.

We offer flexible program delivery options, enabling you to fit *More than Money* within your curriculum goals and available class time.
